A Message from Our CEO

Dear Friend,

As our medical director, Dr. Pat Wells, reminds me often: 2025 was not the year of the pediatrician. From executive orders singling out trans youth, ICE agents targeting health facilities, and a significant increase in suicides and self-harm, 2025 was a challenging year for young people's health.

And yet, through it all, the Corner Health Center remains a refuge of safety and hope for young people in our community. When local health systems suspended care for trans youth, the Corner stepped in to bridge the gap and provide access to care for those directly impacted. In fact, gender affirming care is our fastest-growing service line, as kids from across Michigan and the region turn to us for accessible, judgment-free care.

This year we have been successful in expanding our Spanish language interpreter program. Through local partnerships, we have been working hard to foster trust amongst all members of our community. Despite the prevalent climate of fear, the Corner ensures everybody who needs care gets it – regardless of background, status, or language barriers.

Every Spring when I write this message, I am reminded of the exceptional work we do to restore hope, trust, and faith in the healthcare system. Dr. Wells was right; it was not the year of the pediatrician. Yet despite the challenges, the Corner stood up taller and prouder as others took a seat.

I hope you see yourself reflected in these pages, because we stand on your shoulders. Thank you for supporting our mission and helping thousands of kids get the care they deserve; we depend on you!

Alex Plum, MPH, MBA, FACHE
Chief Executive Officer

Who We Are

OUR MISSION

The mission of the Corner Health Center is to inspire 12- to 25-year-olds (and their children) to live and sustain healthy lives by providing them with judgment-free, affordable health and wellness care and education.

OUR GOALS

To enable young people to:

- get exceptional health care
- reduce risk-taking
- understand the long-range implications of their behaviors and choices
- participate in and take responsibility for their own health and well-being

“The **Corner Health Center** isn’t just a clinic... **It’s a lifeline** for young people, like me, in need of care and support.”

Clinic Patient since 2021

From Our Patients

★ 4.8

out of 5
overall satisfaction

I've always felt comfortable. I've been a **patient for 10 years** and have **always recommended The Corner** to all the youth that I know because of the **phenomenal help and care I've received!**

The Corner helps give me the ability to grow into the man I'd like to become!

I love the friendly staff, welcoming environment, emphasis on **equality for all, and low, affordable costs.**

Integrated Healthcare

The Corner Health Center's innovative Community Therapist position **meets the mental health needs of youth in our community**. By providing access and services to youth where they are, we're able to provide needed **support in homes, schools, at community events, and more!**

Corner Health Center social workers provided nearly **200 hours of community-based therapy in Ypsilanti and Ann Arbor schools** via 15-20 min. micro interventions in our Community Therapy Program!

For the second straight year, the Corner Health Center was awarded '**Best Health Nonprofit**' award in Current Magazine's **2025 Best of Washtenaw**. Additionally, our clinic was named the **2025 Best Mental Health Service in Ypsilanti** by BusinessRate!

Early Interventions

The **Washtenaw County Sheriff's Office** & the Corner have **partnered** on a program to deflect the county's young people from the criminal legal system and towards support and resources. The **RAPID** program, a **pre-arrest deflection program**, offers law enforcement a meaningful alternative to arrest for youth in Washtenaw County.

In summer of 2025 Corner Health celebrated our first graduation of the **Fraternity of Fathers cohort** of 10 fathers. The program is tailored for dads of young children utilizing adventure therapy to deliver attachment theory concepts in an **interactive** and **supportive format**.

The Corner's perinatal program continues to run parent cafes, infant safe baby classes, birthing and breastfeeding classes, and more! Our social workers and nurses partner with **Washtenaw Intermediate School District (WISD)**, **Washtenaw County Health Department**, and many more!

Enrichment & Leadership Development

The Corner opened its new satellite clinic in Sturgis, Michigan. The **Sturgis Public School's Student Help & Healing Center** is our newest school-linked health center, in **partnership** with the **Michigan Department of Health & Human Services (MDHHS)**.

This is one of three school-based health sites under the umbrella of the Corner Health Center.

The **Youth Leadership Council**, a youth-led group designed to promote change and raise awareness of community health issues, presented at multiple conferences. The leadership group provided **NARCAN® training** and presented **harm reduction strategies** relating to alcohol use and alcohol poisoning in Washtenaw schools.

The Corner Health Center's Board of Directors includes two **youth board members** (students from local high schools) who help guide our decisions ensuring a youth-centered approach. The youth board positions provide **valuable leadership experience** for young people interested in governance.

Community Impact

In 2025, our community-based programs **engaged 9,357 youth** through services, workshops, and ongoing programming. This number reflects total program engagements and may include youth who participated in ongoing programs throughout the year. Additionally, Corner Health Center **staff participated** in **more than 40 community events** in support of our partners and schools.

The Corner Health Center tables provided first aid, snacks, bracelets, words of affirmation, and much more at 2025 Ann Arbor Pride & Ypsi Pride!

Community Impact

The **Corner Store**, located in our building, is stocked with food, household items, hygiene products, books, baby clothes, and other necessities for our patients and community members. The **free pantry program served 951 unique individuals** and **over 500 households** last year.

When **SNAP restrictions** took effect in November of 2025, our pantry saw 258 unique individuals. **More than 25%** of our annual visits came in November. The Corner Store is a **vital lifeline** for many in our community.

Stories of Hope

A patient came to the Corner for care during her pregnancy. She was dealing with so much loss and hardship in her life at that time and was unsure how she would care for a baby on her own. She'd been hurt by service providers in the past and was very upfront about how hard it was for her to feel safe and trusting in a healthcare setting. Gradually, the Corner Health Center became a safe place for her. She wrote to us about our impact.

Thank you for all the support and help on my pregnancy journey. I could have not made it this far without the Corner's team. I feel as though I owe you the world.

Perinatal Health Coordinator, Kathleen, teaching an infant safety course

Stories of Hope

The following are anecdotes from students in our Expanding, Enhancing Emotional Health (E3) program in Van Buren Public Schools.

A 19-year-old client who had been through many different school systems and had some negative therapy experiences in the past. When she began therapy, she had been significantly behind on schoolwork and was attempting to work towards graduation. Her anxiety would often make it difficult for her to attend and participate in school. She was **referred to E3 by her school counselor** and was able to make some significant progress while in services. Previously, therapy had been difficult for her to keep up with due to a transportation barrier. She was able to get connected to the Corner Health Center for psychiatry and other community classes. By the time she completed her therapy, she was able to graduate from school and is working towards becoming an independent adult.

I would have never thought I would have been open to therapy before starting my work with E3. Having a school-based health center inside my school helped improve my mood and mindset on what school can be.

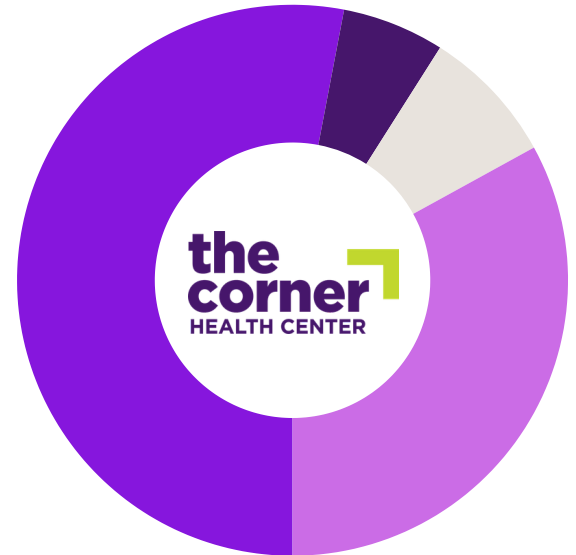

We'd like to thank our amazing community partners for their unwavering commitment to our mission, holding the health and well-being of our community's young adults in the highest regard.
